PROFESSIONAL PROFILE

IT Technician, specialized in developing tailored software systems: from requirements analysis to the final interface. Before writing any code, I take the time to understand the user's real needs, in order to design solutions that genuinely fit each client's context. I have experience in both frontend and backend, including API and database design. I consider myself a curious, self-taught person, with a strong ease and interest in learning new tools. I feel very comfortable working in multicultural contexts, and I adapt quickly to new work environments.

WORK EXPERIENCE

2026 SOFTWARE DEVELOPER — FREELANCE

Dir. Gral. de Oftalmología, Ministerio de Salud — Santa Fe, Argentina (remote)

Requirements gathering and analysis, system design, and end-to-end development of a platform for managing eyeglass prescriptions, appointment scheduling, and frame fabrication status, ensuring compliance with healthcare regulations for the handling of sensitive patient data.

2025 SOFTWARE DEVELOPER — FREELANCE

MEGA Multiservicios S.A. — Santa Fe, Argentina (remote)

Migration of the management system to a modern stack, with the addition of new features: stock control, cash flow management, auditing, and a notification system. Staff training on the use of the updated system.

2023 INTERNSHIP

MEGA Multiservicios S.A. — Santa Fe, Argentina

Analysis of the bar's day-to-day operations to define requirements, planning of the system's structure, and development from scratch of a system for order registration and sales management. Staff training.

2019 — MARKETING & COMMUNICATION ASSISTANT

2020 Alas Empresa Junior — Santa Fe, Argentina

Content management and planning for internal and external communication, social media management, and public support through digital channels.

2018 — COMMUNICATION COORDINATOR

2017 XVI Ed. Congreso Arg. de Ingeniería Industrial — Santa Fe, Argentina

Supervision of the communications team, handling issues escalated by other team members. Welcoming speakers and organizing content for digital channels and the event's promotional materials.
